

Children's Library Monthly Report

February 2021

Staff

I have been very busy during this time with grant writing and researching, marketing, and development of our upcoming Summer Learning program. I have also been purchasing books, cataloging, and managing our Instagram presence. On top of this I have produced our on-going content for Facebook and YouTube and two weekly readings for Dial-a-Story. I am also slowly cleaning up the Children's Library and re-organizing our collection to make it more browsable. I am also slowly learning new video and audio editing techniques for our programming and the use of Adobe Premiere Rush I think will be a really useful skill as we continue to produce library content.

Programs

Our Financial Literacy for Families program has been super successful! All families who registered have been participating and I am looking forward to hearing their feedback at the end of March. I am currently planning our Easter Egg Roll, a program that we do yearly with Mayor Garrett. We have received money again this year to participate in ReMake Learning Days in May. I have partnered with Meshwork Press and Haylee Ebersole to provide a week-long arts program for students.

Upcoming

I have a lot of exciting projects planned and upcoming! In particular I am looking forward to our collaborative summer learning program and our Summer Learning Kickoff!

Thank you!

Rachel Moore

Children's Librarian

Assistant Library Director
