May Report(s)

Re-Opening the Library. What is needed?

1. Staff. We need to replace staff we lost in the in 2020 so that we can get back to our pre-covid levels of staffing.
2. Minor changes to library space to allow for better staff protection and social distancing

Financial consequences of understaffing

- Cannot comply with state mandate that we stay open for 45 hours a week with 7 of those hours being on Saturday. Can ask for a waiver for this year. In the future we will likely lose funding.
- About 20% of our RAD funding is based on circulation and computer use. We will likely see this go down dramatically if we cannot maintain pre-covid service hours.
